Dear Sir/Madam,

TESTIMONIAL ON BEHALF OF ATHENKOSI HLONYANE

This letter serves to confirm that Athenkosi Hlonyane is my former top tutee. Herein, I shall attest of his current activities and future plans.

During my years as a Mathematics and Science tutor and engineering student, I have met with and personally tutored more than 200 students from various schools and backgrounds. In my opinion, Mr Hlonyane is amongst the best and remarkably talented students that I have ever tutored. His work ethic and drive makes him surpass his peers and his forever impressing academic performance bears testimony to this.

I find him to be efficient, dependable, extremely competent and trustworthy. Furthermore, he is humble, has an excellent rapport with people of all ages, and is always willing to learn from others. Not only that, he never gets tired of helping his peers during our tutoring sessions.

He has shown all the qualities of a determined, goal-oriented and more importantly, a results oriented individual. At his school, he established himself as a top achiever and school ambassador, a very inspirational Prefect. His achievements include being the **Overall Top Performer** in our Saturday School program. Consequently, he earned himself a lot of respect from his peers. During our tutoring sessions, learners approached him for opinion on their solutions before they called a tutor for assistance. In my opinion, this symbolises his significance to the school's general populace. His calm temperament and integrity has led to him being a revered and respected figure at the program. I believe that in him, we have a future leader.

The learner in question has informed me that he intends to pursue engineering studies and has just recently participated in a job-shadowing program organized by his parents. In my capacity as his former tutor, I highly recommend him for any funding, sponsorship, bursary or scholarship available to assist him to further his academic interests after matric.

Should it be necessary, please do not hesitate to contact me for reference or about the contents of this document.

Kind Regards,

L. Nomzaza, Mr.
